

Sanum Therapy in the Practice

Language: english

Author: Harald Krebs

Type of article: Book

Teaser: **Sanum Therapy in the Practice**; arose from the need for answers, in written form, to the many recurring questions from numerous health care practitioners. It is the end result of years of experience in clinical practice and numerous lectures locally and around the world. The book's goal is to show health care practitioners how to make progress in the treatment of chronic ailments, while at the same time pointing the way to the treatment of acute and subacute disease. To this end, various therapeutic concepts are depicted, but with no claim of exhaustive coverage. Furthermore, for many clinical pictures, we shall also be indicating what is absolutely necessary for a diagnosis and specific treatment, such as lab tests, special examination methods, etc.

At the same time, the various combinatorial options with numerous preparations and treatment methods will be described, such as the possibilities inherent in infusion therapy or the various methods involving autologous blood therapy. **Sanum Therapy in the Praxis**; is meant to be from the practice for the practice, a quick reference work, an aid for those times when it is necessary to develop a good, effective therapeutic concept.
